ABOUT ME

A highly skilled MERN Stack Developer with 2.5 years of industry experience in front-end development. Proficient in modern JavaScript frameworks such as React.js, Vue.js, Nuxt.js, and Svelte. Proven track record of working with dynamic teams to deliver high-quality projects, including website redesigns, UI library management, and building custom solutions. Strong background in troubleshooting, resolving complex issues, and ensuring project deliverables are met on time. Experience with Agile methodologies, code reviews, and client communication.

PROFESSIONAL EXPERIENCE

Mern Stack Developer | March 2023 – June 2024

Envase Technologies | Uposeidonllc Agency (**Remote**)

- Led front-end development for a complete website redesign project, using React.js and Storybook to manage a private UI library.
- Migrated the codebase from old versions of React and React Router DOM (v4) to the latest versions (v6), ensuring better performance, flexibility, and scalability.
- Upgraded the UI library from MUI v4 to MUI v5, solving several build and dependency issues along the way.
- Managed multiple redesign tasks and collaborated with a cross-functional team to achieve high-quality project results.

Front-End Developer | July 2024 –October 2024

Ivueit | Uposeidonllc Agency (**Remote**)

- Contributed to the development and optimization of the dashboard, focusing on data sorting, pagination, and search functionality.
- Worked extensively with React.js, TypeScript, and MUI v5 to resolve complex UI bugs and implement new features.
- Enhanced custom design engine by modifying existing code and ensuring smooth integration of features.

Front-End Developer | August 2022 – January 2023

Capital Vacation | Uposeidonllc Agency (**Remote**)

- Developed a fully customizable, reusable custom builder with Sanity CMS and Next.js 13.
- Gained hands-on experience with Sanity and successfully overcame learning challenges while delivering the project.
- Collaborated closely with clients and developers to meet the project's high standards and deadlines.

Lead Full Stack Developer | May 2024 – February 2025

Devcoded Org **(On-site)**

- Directed the development team by translating client requirements into technical tasks, designing secure RESTful APIs, and architecting scalable backend solutions with a focus on performance and real-time dashboard features.
- Played a key role in UI/UX by creating wireframes and interactive prototypes in Figma, ensuring the final design aligned with client expectations and provided an intuitive user experience.
- Contributed to mobile application development using Flutter and React Native, delivering high-quality cross-platform solutions optimized for both Android and iOS.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SASS
- **Frameworks/Libraries:** React.js, Vue.js, Nuxt.js, Svelte, Node.js, Next.js, FastAPI
- **UI/UX:** Material UI (v4, v5), Bootstrap (v4), Storybook, Tailwind Css
- **Tools:** Git, Webpack, npm, Yarn, Visual Studio Code, Jira, Monday.com
- **Databases:** MongoDB, Sanity CMS
- **Version Control:** Git, GitHub, Bitbucket
- **Other:** Agile, RESTful APIs, Responsive Web Design, Cross-Browser Compatibility

EDUCATION

Higher Secondary Certificate (HSC)

Pabna Technical School and College | Computer Science Department

- GPA: 4.64
- Graduated: 2022
